Energy Economics

Index to Volume 5
January, April, July, October 1983

Articles – titles

Electricity supply and demand

Electricity consumption, electricity intensity and industrial structure. *G. A. Hankinson* and *J. M. W. Rhys.* 5.3, 146–152

Instability of electricity demand functions in the post-oil-embargo period. *R. J. Sutherland.* 5.4, 267–272

A model of residential demand for electricity using a national household sample. *C. Garbacz.* 5.2, 124–128

Optimal electricity supply reliability using customer shortage costs. *A. P. Sanghvi,* 5.2, 129–136

Television peaks in electricity demand. *D. W. Bunn* and *J. P. Seigal.* 5.1, 31–36

The theory of maximum kW demand charges for electricity. *S. V. Berg* and *A. Savvides.* 5.4, 258–266

Energy demand and energy efficiency

Capital stock rotation, conservation and fuel substitution in the UK industrial steam-raising market. *J. H. Chesshire* and *M. J. Robson.* 5.4, 218–231

Derivation of a theoretical form of a production function for home temperature – a comment. *R. A. Collins* and *J. K. Gray.* 5.4, 273–274

The IIED industrial energy conservation programme: an order of magnitude assessment. *M. S. Common.* 5.4, 232–236

A model of district heating using a CHP plant. *M. Marchand, S. Proost* and *E. Wilberz.* 5.4, 247–257

Production functions for house temperatures: problems and issues – a reply. *A Scott* and *G. Capper.* 5.4, 275–278

Residential space heating: an analysis of energy conservation. *H. R. Isakson.* 5.1, 49–57

Structural change and energy efficiency in industry. *C. A. Jenne* and *R. K. Cattell.* 5.2, 114–123

Energy–economy interactions

Energy and economic activity – a reply. *M. Beenstock* and *P. Willcocks.* 5.3, 212

Energy and the long cycles. *G. F. Ray.* 5.1, 3–8

The energy constraint and development: consistency and optimality over time. *S-H. Park* and *A. A. Kubursi.* 5.1, 9–15

Energy consumption and economic activity in industrialized economies – a note. *G. Kouris.* 5.3, 207–211

Energy investment and economic growth: a simplified approach. *J-E. Samouilidis* and *C. S. Mitropoulous.* 5.4, 237–246

Hotelling rule, economic responses and oil prices. *G. Fishelson.* 5.3, 153–156

The impact of energy prices: a housing market analysis. *A. S. Zaki* and *H. R. Isakson.* 5.2, 100–104

Inflation controlled by energy prices. *P. E. Thoresen.* 5.3, 202–206

A long-term global energy–economic model of carbon dioxide release from fossil fuel use. *J. Edmonds* and *J. Reilly.* 5.2, 74–88

Regional employment impact of rapidly escalating energy costs. *D. X. Kolk.* 5.2, 105–113

Energy modelling

An aggregate petroleum consumption model. *S. B. Brown.* 5.1, 27–30

Cyclical economic fluctuations and oil consumption behaviour. *M. Dailami.* 5.3, 157–163

Energy investment and economic growth: a simplified approach. *J-E. Samouilidis* and *C. S. Mitropoulos.* 5.4, 237–246

Fuel consumption for road transport in the USA. *G. Kouris.* 5.2, 89–99

Hotelling rule, economic responses and oil prices. *G. Fishelson.* 5.3, 153–156

Industrial demand for natural gas: inter-industry variation in New York State. *J. M. Gowdy.* 5.3, 171–177

Instability of electricity demand functions in the post-oil-embargo period. *R. J. Sutherland.* 5.4, 267–272

A long-term global energy–economic model of carbon dioxide release from fossil fuel use. *J. Edmonds* and *J. Reilly.* 5.2, 74–88

Market conditions and future oil prices. *G. C. Ruggeri.* 5.3, 190–194

A model of district heating using CHP plant. *M. Marchand, S. Proost* and *E. Wilberz.* 5.4, 247–257

A model of residential demand for electricity using a national household sample. *C. Garbacz.* 5.2, 124–128

Natural gas price elasticities: variations by region and by sector in the USA. *B-C. Liu.* 5.3, 195–201

Oil prices without OPEC: a walk on the supply-side. *J. Roumasset, D. Isaak* and *F. Fesharaki.* 5.3, 164–170

Petrol supplies and consumer expectations. *R. E. Martin.* 5.1, 16–26

Sequential development of correlated projects: an application to coal liquefaction. *N. T. Gallini.* 5.1, 37–48

The 'sub-trigger' crisis: an economic analysis of flexible stock policies. *R. G. Hubbard* and *R. Weiner.* 5.3, 178–189

Exhaustible resource markets

Hotelling rule, economic responses and oil prices. *G. Fishelson.* 5.3, 153–156

Market conditions and future oil prices. *G. C. Ruggeri.* 5.3, 190–194

Oil prices without OPEC: a walk on the supply-side. *J. Roumasset, D. Isaak* and *F. Fesharaki.* 5.3, 164–170

Sequential development of correlated projects: an application to coal liquefaction. *N. T. Gallini.* 5.1, 37–48

Oil and gas supply and demand

An aggregate petroleum consumption model. *S. B. Brown.* 5.1, 27–30

Cyclical economic fluctuations and oil consumption behaviour. *M. Dailami.* 5.3, 157–163

Fuel consumption for road transport in the USA. *G. Kouris.* 5.2, 89–99

Helium conservation and supply and demand projections in the USA. *B-C. Liu.* 5.1, 58–64

Industrial demand for natural gas: inter-industry variation in New

York State. *J. M. Gowdy.* 5.3, 171–177
Market conditions and future oil prices. *G. C. Ruggeri.* 5.3, 190–194
Natural gas price elasticities: variations by region and by sector in the USA. *B-C. Liu.* 5.3, 195–201
Oil prices without OPEC: a walk on the supply-side. *J. Roumasset, D. Isaak* and *F. Fesharaki.* 5.3, 164–170
Petrol supplies and consumer expectations. *R. E. Martin.* 5.1, 16–26
The 'sub-trigger' crisis: an econometric analysis of flexible stock policies. *R. G. Hubbard* and *R. Weiner.* 5.3, 178–189

Book reviews

La Demande d'Energie en Suisse by Charles Spieren (P. Ramain and D. Launay). 5.2, 138–139
Energy Policy and Forecasting by Glenn R. DeSouza (Terry Barker). 5.1, 65
Energy Strategies for the UK by S. C. Littlechild and K. G. Vaidya (T. A. Kennedy). 5.4, 279–281
Geothermal Energy: Investment Decisions and Commercial Development by P. D. Blair, T. A. V. Cassel and R. H. Edelstein (D. Pearce). 5.3, 213–214
A Global View of Energy by B. N. Kursunoglu, A. Millunzi and A. Perlmutter (D. Pearce). 5.4, 279
OPEC Behaviour and World Oil Prices edited by J. A. Griffin and D. J. Teece (P. A. Davies). 5.3, 213

Rejoinders

Peak load pricing of public utilities: some comments. M. A. Crew and P. R. Kleindorfer. 5.2, 137
Reply: Y. C. Peles, 5.2, 137

Recent papers

5.1, 66–67; 5.2, 139–140; 5.3, 214–215; 5.4, 281–282

Publications

5.3, 215–216; 5.4, 282–284

Conferences

5.1, 68; 5.2, 140–141; 5.3, IBC; 5.4, 285–286
